The Glome Management stressed that, despite the impact of the Covid-19 pandemic, their equipment will be shipped to Vietnam as planned, to strengthen their partnership with DTU. They also remarked that Vietnam had successfully combatted the virus so far, although it is still raging worldwide, proving Vietnam's capability and the great potential it holds for the future.

As part of the ceremony, Glome Management Group and DTU signed a partnership agreement to provide extra Nursing training and lecturers to DTU to implement a Japanese language program. In addition to training equipment, Glome Management Group will grant 30 scholarships for the very first students attending this joint training program.
