

DTU Signs an MOU with the Healthcare Accelerator Legal Health Organization

On March 2, DTU signed an agreement with the Healthcare Accelerator Legal Health organization of Japan. Attendees included Mr. Ohta Yuki, Executive Director of Healthcare Accelerator Legal Health, Dr. Le Nguyen Bao, DTU Provost, lecturers and representatives of the two partners.

The agreement is signed online because of the pandemic

Mr. Ohta Yuki said: *“The Covid-19 pandemic has seriously affected the medical system in Japan but, in the interim, many new hospitals have been built for the timely treatment of patients. We hope that Vietnamese students will be able to intern and work in Japan in the near future but meanwhile we will continue to donate medical equipment to help DTU students improve their medical practice skills.”*

The agreement came after a period of investigation and discussion between the partners. Students will be supported when applying for internship visas to Japan, those with the best grades or financial difficulties will receive special scholarships and study with Japanese experts.

Representatives of Healthcare Accelerator Legal Health and DTU

Japanese lecturers will come to DTU in advance with the appropriate materials to teach basic nursing skills, Japanese culture and the language.

DTU has already partnered with the Suganuma Corporation, the Glome Management Group and the SEIREI Social Welfare community to teach nursing and send lecturers and students to Japan to improve their qualifications.
