

Graduation Ceremony for Transfer Students

On 16th January, 2011, the DTU Engineering Department held a graduation ceremony for Civil and Industrial Engineering T13 transfer students.

Among the graduates were five first-class and one hundred second-class students. Thanks to the strong efforts of both lecturers and students, this was the first DTU Engineering transfer course.

Mr. Huynh Ngoc Hao awards degrees to the graduates

Speaking at the ceremony, Mr. Huynh Ngoc Hao, DTU Vice Rector, congratulated the students on their achievement. He said: *“This is an advanced program with much practical work, so it provides you with the very specialized knowledge and experience to now employ in your future careers”*.

The DTU Engineering department has enrolled over 1,300 transfer students since 2007, who are now available to offer their skills to the development of Central Vietnam.
