

Let's Vote for DTU!

From the 100th position on the voting list, DTU made great efforts and came second in the “I’m Proud of My University” competition held by www.banbe.net.

Surprised by DTU’s swift rise in the balloting, Vinh University (with about 3,600 votes) came up with some strong strategies to increase the gap between the two universities. However, DTU did not give up easily and only three hundred votes separated the two universities for several days.
