

LogiGear Vietnam meets with DTU students

On 11th March, 2011, Mr. Vuong Bao Long, HR Manager of LogiGear VietNam had a talk to DTU lecturers and students of DTU Information Technology Department.

LogiGear Vietnam was established in 1994 by the first specialists in software technology Michael Hackertt and Hans Buwalda. This company has served hundreds of worldwide companies in Software Testing such as: Fotune 500 (EA, McAfee, Adobe, Disney, and so on. He highly appreciated the partnership between DTU and Carnegie Melon University.

LogiGear Vietnam representative talks to DTU students

Also, students were consulted about careers guidance and the importance of Software Testing in software guaranty that can help students get success in their future jobs.

On behalf of DTU, Mr. Nguyen Gia Nhu thanked representative of LogiGear Vietnam for sharing such useful information. *“IT students are always welcomed by many IT companies. DTU will send LogiGear Vietnam our best students in IT when needed. We hope this will be a long lasting partnership in the software development”*, he said.
