

## The Opening of the DTU K10 Master's Program

On June 7th, DTU held the opening ceremony of K10 Master's program. Attendees included Distinguished Teacher Le Cong Co, DTU Provosts, Deans, Directors of DTU Centers and students of the program.

Addressing at the ceremony, Distinguished Teacher Le Cong Co said: *“During twenty years of construction and development, DTU has collaborated with foreign universities to enhance the quality of education and give students access to advanced international programs. Most students in the Master’s program are already experienced employees at various local companies, so DTU has designed this program to their specific needs. Our graduate students will contribute to the future of Vietnam by developing practical theses that will benefit their careers, the local community and our nation.”*

At the ceremony, Dr. Ho Van Nhan, Associate Dean of the DTU Graduate School, announced the decision by DTU provosts to allocate 143 places for DTU Master's programs, comprising 70 in Business Administration, 29 in Accounting, 25 in Construction and 19 in Computer Science. Leaders of the Graduate School examined the content and strategy of each course to tailor them exactly to student requirements and be clearly understood.

Le Quang Tan, a K10 accounting student in the Graduate Program said: *"I was very happy to pass the examination and begin my graduate studies at DTU. I would like to thank to DTU for the excellent way they enthusiastically prepared us to pass the exam. I am determined to study and research harder and harder to enhance my knowledge and skills."*

Five years after its founding, the DTU Graduate School has established a strong position in DTU's system of academic programs. Many DTU Master's graduates are now holding important roles in companies in Danang and the Central Region, affirming the high quality of a DTU education.
