

## Welcoming Event for K17 students

FDTU members held an event on 23<sup>rd</sup> October, 2011 for K17 students to get to know each other. This was also a good opportunity for freshmen to find out about the DTU Forum and DTU Facebook at the beginning of their first year.

*A talk show with some typical students*

After opening the event with a brief introduction on FDTU and DTU's Facebook, Hyo Bin, the FDTU Administrator reported: *"The DTU Forum was first established in 2009 and our membership has grown steadily. Today there are 50,000 members and over 93,000 posts. This is a place for DTU students and lecturers to exchange information about their study experiences. You can easily find your favorite chat room that best matches your abilities and interests"*.

*K17 students eagerly participate in the welcoming meeting*

The event featured delightful musical and dance performances by the FDTU administration and current members. Exciting activities, such as “*Fast Text Messaging*”, “*Chasing Pics, Catching Words*”, “*The Miming Game*”, and so on made everyone feel happier and closer to each other. Administrator Anh2bmw said: “*We hope this event will help new students make new friends and become active members of our Forum.*” Le Anh Vu, a K17 student, shared his feeling by saying: “*This was such an incredible experience. I have never met such friendly students and forum members before so I’m registering to become an FDTU member immediately*”.
